<b>18</b>	<b>Interchange of CRs 516/527</b>	9394	9394
-----------	-----------------------------------	------	------

**LOCATION/DESCRIPTION**

Interchange improvements will include eliminating geometric design deficiencies of the existing interchange to improve safety and operations. This realignment includes widening Route 18 to provide adequate inside shoulders and widening CRs 516/527 in both directions through the interchange area. To accommodate these improvements, the existing bridge over Route 18 will be replaced. The Initially Preferred Alternative also provides a new ramp from Route 18 northbound to CR 516/527 eastbound and westbound via a new signalized intersection. The existing ramps to and from Route 18 and CR 516/527 are also reconfigured to match the proposed alignment of Route 18 at CR 516/527. The signalized intersection of CR 516 and Old Matawan Road will be relocated and improved. This signal will be coordinated with the new signal at the ramp from Route 18 to optimize operations at both intersections. This project will be bicycle/pedestrian compatible.
